FITTING INSRUCTIONS

TYGA-Performance SUZUKA style spotlight

Part number: BPLT-0001

Bike Model: TYGA Suzuka Style Upper Cowl

The Suzuka Style Spotlight is for use with the TYGA Suzuka Style upper cowls dedicated to the Honda NSR250, NC30/35. The light is wired to work only on high beam.

The spotlight is pre-fitted loosely into position prior to shipping, so take note of fasteners etc. before removal.

Connect the spotlight plug to the stock headlight plug in the wire harness. The plugs can fit together one way only.

The light will now operate in harmony with the high beam of the main headlight, and also when the pass button is pressed.
